

# Cyborg Survivor

---

Pitch Deck

September 2024

# Storyline

---

The player is a cyborg half-flesh half-machine, the sole surviving crew member of a spaceship which has crashed on a seemingly uninhabited planet. They must explore the planet, find resources to repair and upgrade both themselves and the ship, while fighting to defend the ship from hostile unknowns until they can escape the planet and return to civilisation.

# Unique Features

---

## Upgrades:

Alter your cyborg body with powerful components and to become faster, stronger or smarter. Learn new skills and ingest upgrades that suit you style of play

# Features

---

## Combat:

Defend you ship and fight for resources against indigenous wildlife and sentient aliens

## Achievements:

Defeat powerful enemies, learn new skills, upgrade yourself and survive

## Exploration:

Search through the wreckage of alien civilisations and ruined worlds for parts to upgrade yourself and repair you spaceship

# Core Gameplay: What does the player do?

---

Explore the 3D environment, collect schematics and tools to repair the spaceship, fight hostile wildlife.
